## Privest Wireless Remote Control

The Privest Wireless Remote Control is an accessory for the Privest wireless alarm system. You can use it to arm and disarm your system, trigger a panic alarm or activate switching outputs. Conveniently operate your system from anywhere inside or outside your property, without having to walk to the control panel or a control unit.

The range of the wireless remote control is up to 200 metres. With suitable batteries (3 V lithium), its service life is approximately 36 months. The wireless remote control is also equipped with a panic alarm function.

---

**Product highlights:**

- Operation at the push of a button
  - Keys for arming and disarming the Privest wireless alarm system
  - Triggering panic alarm
  - Switching of outputs
  - Small and handy
